Date of filing in State Engineer's Office.....

Returned to applicant for correction.....

Corrected application filed.....

Map filed..... **FEB 12 1973**

The applicant State of Nevada, Department of Highways
of Carson City, County of Carson,
State of Nevada, hereby makeS.. application for permission to appropriate the public
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion; if a copartnership or association, give names of members.)

Grant Bastian - State Highway Engineer

1. The source of the proposed appropriation is Underground
Name of stream, lake or other source.
2. The amount of water applied for is 0.022 second-feet
One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet acre-feet
3. The water to be used for Irrigation and domestic use
Irrigation, power, mining, manufacturing, domestic, or other use.
4. If use is for:
 - (a) Irrigation (state number of acres to be irrigated) 80 Acres, more or less
 - (b) Stockwater (state number and kinds of animals to be watered)
 - (c) Other use (describe fully under "No. 12. Remarks") See No. 11
 - (d) Power:
 - (1) Horsepower developed
 - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point: in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of
Section 20, T. 18 N., R. 37 E., M.D.B.&M., at a point from which
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
the north quarter corner of said Section 20 bears N. 88°34'30"E.,
it should be stated. a distance of 434.27 feet.
6. Place of use is the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of said Section 20, and the SE $\frac{1}{4}$ of
Describe by legal subdivision, if on unsurveyed land it should be so stated.
the SW $\frac{1}{4}$ of Section 17, T. 18 N., R. 37 E., M.D.B.&M.
7. Use will begin about January 1 and end about December 31, of each year.
Month Month
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans
and specifications of your diversion or storage works.) The water will be pumped from the
Well by windmill, through a 1 $\frac{1}{2}$ inch pipe into an underground 1000
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.
gallon storage tank, from which it will be drawn for irrigation and
domestic use.

9. Estimated cost of works. \$10,000.00
10. Estimated time required to construct works. 6 months
11. Estimated time required to complete the application to beneficial use.
12. Remarks. The water will be drawn from the underground storage by hand pump, for domestic use, and Highway maintenance crews will periodically draw water to irrigate various trees and plants and divert overflow to same, in order to maintain an inviting roadside rest area for U.S. 50 Highway traffic.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.022 cubic feet per second, but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before December 13, 1973

Proof of commencement of work shall be filed before January 13, 1974

Work must be prosecuted with reasonable diligence and be completed on or before December 13, 1974

Proof of completion of work shall be filed before January 13, 1975

Application of water to beneficial use shall be made on or before December 13, 1975

Proof of the application of water to beneficial use shall be filed on or before January 13, 1976

Map in support of proof of beneficial use shall be filed on or before January 13, 1976

Commencement of work filed. JAN 22 1974

Completion of work filed. JAN 22 1974

Proof of beneficial use filed.

Cultural map filed.
